SHOWCASE WINE

Soul of a great Margaux

Grand Cru Classé en 1855

CHATEAU D'ISSAN

MARGAUX

31. CHATEAU D'ISSAN, MARGAUX

Bordeaux, France

Château d'Issan is a Third Growth of the 1855 Imperial Classification. The wine is made from the old vines in the Château d'Issan enclosure in the middle of the Margaux appellation.

The soil there is mainly made up of surface gravel on top of a clay subsoil, which contributes to optimal ripeness and freshness in their two grape varieties, Cabernet Sauvignon and Merlot.

Château d'Issan expresses the exquisite bouquet so characteristic of Margaux, and stands out with its suppleness, subtlety, elegance and long keeping potential that come from its unique terroir.

Château d'Issan is aged in barrels for 16 to 18 months, half of which are new. Annual production is around 100,000 bottles.

SHOWCASE CHAMPAGNE

The Luxury of Champagne

ARMAND DE BRIGNAC
CHAMPAGNE

32. ARMAND DE BRIGNAC

Champagne, France

In the 1950s, Nelly Cattier, mother to Jean-Jacques, discovered a character in a novel she was reading, called 'M. De Brignac'. She found the name noble and registered it for use on a new wine in the future.

It was long forgotten, and during the creation of this new tête de cuvée from the house in the early 2000s, Jean-Jacques decided to pay tribute to his mother by adopting this special name.

Each bottle of Armand de Brignac is coated in metal, finished with the hand application of French pewter labels and polished. Only 20 bottles can be completed per person per hour in the winery, and as a result, no two bottles are the same.

To taste, peach, apricot and red berry aromas, followed by crystalized citrus, orange blossom and hints of brioche. Rich palate of cherries, exotic fruits, lemon, vanilla and honey.

The mouth is soft and creamy, with a hint of toastiness, from the unique dosage aged for one year in French oak.

VODKA

Vodka is a completely clear spirit that can be produced from anything containing starch, with the most common cases including potatoes, sugar beet molasses and grain. Even though some describe vodka as tasteless and flavourless, the raw material used in the production process is what differentiates one vodka from another. Vodka is about purity and each of our vodkas have been specially chosen for their unique qualities.

STOLICHNAYA ELIT VODKA

Stolichnaya Elit Vodka is a premium vodka brand that is known for its high quality and luxurious taste. It is produced in Latvia by the Stolichnaya brand, which has been making vodka since 1938. Made using a unique process that involves freeze filtration, which is designed to remove impurities from the vodka without compromising its flavour. The vodka is distilled three times from high-quality wheat and then filtered through charcoal and quartz sand before being chilled to -18 degrees Celsius and filtered again through a freeze filter. This process results in a vodka that is exceptionally smooth and pure, with a distinct flavour profile.

REMY XO

Exclusive

Rémy Martin XO is a Fine Champagne Cognac with 85% of the fruit coming from the best Grande Champagne vineyards. The aromas have a real florality about them with hints of jasmine and iris which complement the richer tones of cinnamon, figs and candied fruit really well. The palate sees these flavour carry through while the smooth velvety texture and long lingering finish mark this out as a pretty special XO Cognac.

Founded back in 1724 Rémy Martin is thought of as one of the 'Big Four' Cognac Houses. They're well known for their Fine Champagne Cognacs, that is those made only from fruit grown in the two most favoured vineyard zones, Grande Champagne and Petite Champagne, which due to the quality of the resulting eaux-de-vie they tend to age for longer than most others to achieve a real maturity and mellow character. Their headquarters is in the town of Cognac itself.

LIQUORS & LIQUEURS

The creation of liqueurs can be traced back to ancient civilisation when liqueurs were, like many spirits, developed for medicinal purposes. Development continued in the Middle Ages with monks cultivating vast herb gardens and experimenting with various ingredients to perfect their liqueur-making techniques. The earliest alcoholic beverage in the world was a mixed fermented drink of rice, honey, and hawthorn fruit and/or grape. The residues of the beverage, dated ca. 7000–6600 BCE, were recovered from early pottery from Jiahu, a Neolithic village in the Yellow River Valley
